FICTIONAL DEMO DATA - NOT A REAL INVOICE, RECEIPT, CONTRACT, OR HEALTH SYSTEM

Master Construction Services Agreement

Original agreement - historical baseline

Agreement ID	MCSA-LRHS-2025-001
Effective date	January 1, 2025
Owner	Lakeshore Regional Health System
Contractor	Northbridge General Contractors, LLC
Project	West Pavilion Renovation
Term	January 1-December 31, 2025, subject to written extension

1. Purpose and scope

Contractor will provide construction management, skilled labor, equipment coordination, and subcontractor administration for the West Pavilion Renovation. Work must be supported by contemporaneous records sufficient for Owner to validate the nature, date, quantity, and cost of each charge.

This Agreement establishes the original commercial baseline. Later restatements, amendments, and project addenda may replace specific provisions without invalidating definitions or audit rights that are expressly retained.

2. Order of precedence

If documents conflict, the most recent written amendment addressing the disputed subject controls, followed by a project-specific addendum, the current statement of work, and this Agreement. A document does not override an unrelated provision merely because it is newer.

3. Invoice requirements

Each monthly invoice must identify the billing period, project, labor classification, hours, rate, equipment description, operating days, subcontractor invoice number, and separately stated reimbursable costs. Summary-only charges may be held pending supporting detail.

Contractor must retain time records, receipts, equipment logs, subcontractor invoices, and cost-register detail for seven years. Owner may request any supporting item before approval.

4. Original labor schedule

The original straight-time rates are shown in Exhibit A. Rates include payroll burden, ordinary supervision, and contractor overhead unless a later document expressly states otherwise.

Classification	Original rate	Notes
Carpenter	$105.00/hr	Straight time
Electrician	$128.00/hr	Straight time
Laborer	$92.00/hr	Straight time

Classification	Original rate	Notes
Superintendent	$145.00/hr	Straight time; no small-tools base

5. Reimbursable costs

Actual and necessary project costs may be reimbursed only when reasonable, allocable to the project, and supported as required. Contractor may not conceal disallowed costs in a composite or percentage charge.

5.1 Small tools

Small hand tools and consumables may be billed through a percentage allowance when authorized in the then-current commercial terms. Large equipment, rentals, PPE, and subcontractor costs are not small tools.

5.2 Equipment

Equipment is reimbursable at the lower of the documented third-party cost or the applicable contract rate. Standby days are not billable unless approved in writing.

6. Prohibited costs

Alcoholic beverages, fines, penalties, personal entertainment, duplicate charges, and costs unrelated to the project are not reimbursable under any circumstance.

7. Audit and dispute

Owner may withhold only the disputed portion while undisputed amounts continue through review. Contractor will respond to an exception log with supporting records or a proposed adjustment. Neither silence nor system unavailability converts an unsupported cost into an approved cost.

8. Signatures

For Owner	Morgan Ellery, VP Capital Projects - electronically acknowledged Dec 18, 2024
For Contractor	Rafael Dunn, President - electronically acknowledged Dec 20, 2024
