FICTIONAL DEMO DATA - NOT A REAL INVOICE, RECEIPT, CONTRACT, OR HEALTH SYSTEM

Revised and Restated Construction Services Agreement

Current base agreement for 2026 billings

Agreement ID	RCSA-LRHS-2026-001
Effective date	January 1, 2026
Owner	Lakeshore Regional Health System
Contractor	Northbridge General Contractors, LLC
Project	West Pavilion Renovation
Replaces	Commercial terms of MCSA-LRHS-2025-001, except surviving definitions and audit rights

1. Restatement and precedence

This Agreement restates the commercial terms effective for services performed on or after January 1, 2026. Definitions, record-retention duties, and audit rights from the Master Agreement survive unless expressly replaced here.

For a billing-period question, apply the newest document that expressly governs the relevant category and service date. Project addenda may provide temporary approvals without changing the general rule after their stated expiration.

2. Monthly invoice package

Contractor will submit one monthly invoice package containing an invoice cover, detailed cost register, direct-labor schedule, equipment schedule, itemized receipts, and each subcontractor invoice included in the request. The invoice cover and cost register must reconcile exactly.

Owner will return an exception log identifying the invoice page, amount, description, governing term, requested information, and reviewer comments. Contractor may respond with corrected data or additional evidence.

3. Labor

Direct labor is reimbursable only for actual hours worked in an approved classification at the then-current schedule rate. Labor classifications may not be substituted solely to obtain a higher rate.

Overtime premiums require written project-specific authorization identifying the classification, multiplier, time period, and maximum hours. Unapproved premiums are adjusted to straight time.

4. Subcontractors

Subcontractor costs are reimbursable at actual invoiced cost without markup unless a separate written fee applies. Each pass-through charge must include the subcontractor invoice and required supporting records. Owner may validate a subcontractor charge against the same contract rules that would apply if Contractor billed it directly.

5. Allowances and equipment

5.1 Small tools. Contractor may bill a small-tools allowance not exceeding 3.0% of submitted eligible direct craft labor charges. Eligible craft labor excludes superintendent time, overtime premiums, subcontractor labor, equipment, materials, PPE, and other reimbursables.

5.2 Equipment. Equipment is reimbursable at the lower of the itemized third-party invoice or the current contract equipment rate. Rate schedules apply to owned and rented equipment. Fuel and delivery are included unless separately authorized.

6. Cost eligibility and support

6.1 Materials. Materials must be project-related and reasonably consumed. Itemized receipts are required for any individual material charge over $500 unless a later amendment imposes a stricter threshold.

6.2 PPE and safety consumables. PPE may be reimbursed when project-specific and supported by an itemized receipt. Ordinary personal workwear is included in labor rates.

6.3 Meals. A project meal is reimbursable only when pre-approved for an extended outage or emergency coordination event and supported by an itemized receipt.

6.4 Alcohol. Alcoholic beverages are never reimbursable, even when included on an otherwise allowable meal receipt.

7. Review and payment

Owner will use commercially reasonable efforts to complete initial review within four business days and final disposition within eight business days after receiving a complete package. Time spent awaiting missing information may be recorded separately from active review time.

Approval of a prior invoice does not waive a contract term. Reviewer comments, evidence, and adjustments must remain associated with the monthly case for audit purposes.

8. Baseline 2026 rate reference

Classification	Jan-Feb 2026 rate	Subject to
Carpenter	$112.00/hr	Later labor amendments
Electrician	$138.00/hr	Later labor amendments and outage addenda
Laborer	$96.00/hr	Later labor amendments
Superintendent	$150.00/hr	Not eligible for small-tools base

9. Acknowledgment

Owner	Morgan Ellery - approved December 15, 2025
Contractor	Rafael Dunn - approved December 17, 2025
