FICTIONAL DEMO DATA - NOT A REAL INVOICE, RECEIPT, CONTRACT, OR HEALTH SYSTEM

Amendment 03 - Evidence and Cost Eligibility

Clarifies supporting-document requirements effective July 1, 2026

Amendment ID	RCSA-LRHS-2026-001-A03
Effective date	July 1, 2026
Purpose	Reduce unsupported monthly charges and accelerate review
Applies to	All July 2026 and later invoice packages

1. Evidence standard

Evidence must identify the vendor, transaction date, item or service, quantity, and amount. A credit-card total without itemization is not sufficient. A missing document is recorded as an unsupported-cost exception pending cure; it is not automatically treated as fraud or nonperformance.

2. Category requirements

Category	Required evidence	Threshold / rule
Materials	Itemized vendor receipt	Required for an individual charge over $500
Equipment	Rental invoice or ownership log plus operating dates	Required for every equipment charge
PPE and safety consumables	Itemized vendor receipt	Required when the charge exceeds $250
Meals	Itemized receipt and business-purpose notation	Required for every meal
Subcontractors	Subcontractor invoice and referenced support	Required for every pass-through invoice

3. Prohibited-cost reaffirmation

Alcohol remains nonreimbursable without exception. The non-alcohol portion of an otherwise eligible meal may be reviewed separately when the receipt is itemized.

4. Invoice-register reconciliation

The invoice cover total, detailed register total, and sum of included subcontractor invoices must tie before final approval. A difference must be explained or corrected, even when all underlying charges are otherwise allowable.

5. Signatures

Owner approval	Morgan Ellery - June 18, 2026
Contractor approval	Rafael Dunn - June 21, 2026
